1. Institute Objectives 研習會目標

This Study of the U.S. Institute is an intensive, rigorous six-week academic seminar whose purpose is to provide university faculty and other professionals from countries worldwide with a deeper understanding of American society, culture and institutions, past and present. The program's ultimate goal is to strengthen curricula and to improve the quality of teaching about the United States in secondary schools and other academic institutions abroad.

2. Program Description 研習會簡介

The Study of the U.S. Institutes for Secondary Educators will provide two multinational groups of 30 secondary educators each (classroom teachers, teacher trainers, curriculum developers, textbook writers, ministry of education officials, etc.) with a deeper understanding of U.S. society, education and culture, past and present. The programs will be organized around a central theme or themes in U.S. civilization and will have a strong contemporary component. Through a combination of traditional, multi-disciplinary and interdisciplinary approaches, the programs will elucidate the history and evolution of U.S. educational institutions and values. The programs also serve to illuminate contemporary political, social, and economic debates in American society. Prospective applicants are encouraged to visit the following website to obtain general information about the previous year's Institute: <http://exchanges.state.gov/academicexchanges/scholars.html>  
The Institute is tentatively scheduled for mid-June to early August, 2010

### 3. Housing and meal arrangements

Typically, participants will have a private room with a shared bathroom during the residency portion (four weeks) of the institute, and will have to share a hotel room during the study tour (up to two weeks.) Housing will usually be in college or university owned housing. Most meals will be provided at campus facilities, though participants may have access to a kitchen to cook some meals on their own. Full details will be provided when available. It is important that applicants understand these arrangements, particularly sharing a hotel room with another participant for up to two weeks.

### 4. Health Insurance

All participants will receive the Department of State's insurance coverage of USD50,000 with a USD25 deductible for the duration of the program. Pre-existing conditions are not covered.

### 5. Funding

The Study of the U.S. Institute will cover all participant costs, including: program administration; international travel; domestic travel and ground transportation; book, cultural, housing and subsistence, mailing, and incidental allowances.

### 6. Program requirements and restrictions

Participants are expected to participate fully in the program. They are expected to attend all lectures and organized activities, and complete assigned readings. Family members and/or friends cannot accompany participants on any part of the program [no exceptions]. Please note that teaching methodology and pedagogical methods will not be addressed formally in the institute program. Candidates should be aware that the institute is very intensive and that there will be little time for personal pursuits unrelated to the program. The institute should not be viewed as a research program. It is important that applicants understand and accept these requirements and restrictions.

### 7. Candidate qualifications

(A) Candidates should be mid-career, typically between the ages of 25-50, highly-motivated and experienced secondary educators. The ideal candidate will be a secondary teacher, teacher trainer, curriculum developer, textbook writer, ministry of education official, or other related professional with responsibility for secondary education who is seeking to introduce or enhance aspects of U.S. studies into his/her curricula.

(B) The ideal candidate will also be an experienced professional with little or no prior experience

in the United States, whose home institution is seeking to introduce aspects of U.S. studies into its curricula, to develop new courses in the subject of the institute, to enhance and update existing courses on the United States, or to offer specialized seminars/workshops for education professionals in U.S. studies. In this respect, while the nominee's scholarly and professional credentials are an important consideration, an equally important factor is how participation in the institute will enhance course offerings in U.S. studies at the nominee's home institution.

(C) Candidates should be willing and able to fully take part in an intensive post-graduate level academic program and study tour. While senior faculty members are eligible applicants, first consideration will be given to younger, mid-career professionals, and to persons who are likely to be comfortable with campus life (including campus-style accommodations) and an active program schedule.
